

Quad Door Chiller 2000 - EVC-2000

Chillers - Specification sheet

Four-door 2,000 L chiller that turns a hypermarket wall into a single branded run.

The largest cabinet in the chiller range, built for hypermarkets, wholesale clubs and stadium concourses. Four independently lit door zones share one continuous canopy, so a brand owns the whole wall, while twin EMMD-controlled circuits keep each half in band when one side takes the traffic.
